Returns for US calculated in US\$

Private Equity performance - superior to the performance of public market comparators

Annualised net pooled IRRs since inception to 31.12.2008

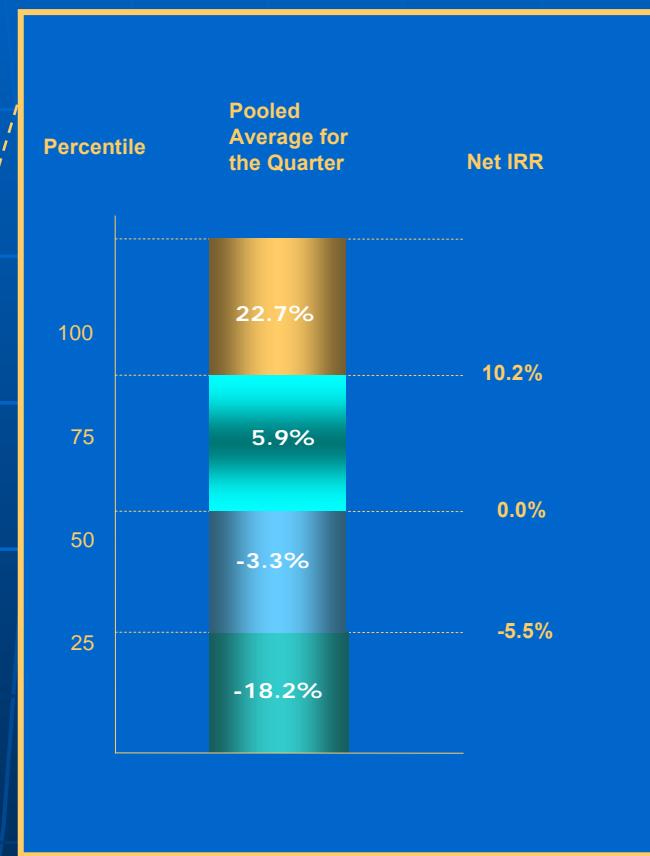

*Comparators are Internal Rates of Return (IRR). IRRs for public market indices are calculated by investing the equivalent cash flows that were invested in private equity into the public market index. Then an equivalent IRR is calculated for each index.

Calculations based on methodology proposed by J Coller and published by A Long and C Nickles.

European Top Quarter Performance at Above 20% Funds Formed 1980-2008

Stage	Pooled IRR	Upper Quartile	Pooled Average Top Quarter IRR
Early Stage	-1.1	1.2	12.9
Development	7.4	9.0	18.8
Balanced	3.3	5.2	12.4
All Venture	3.1	4.7	13.3
Buyout	14.2	17.5	30.9
Generalist	9.1	9.3	22.2
All Private Equity	10.3	10.2	22.7
